RJMSounds Annual Fall Newsletter

Pulling Our Sails in a Different Direction

So fall 2011 is here, time flies when you having fun... the thing I like about September is the change of the seasons, from hot to cool... its like New Years happening for one full month. In October we launched our New DJ equipment for this holiday season, which will feature the transition of CDs to Mp3 files and new Software Virtual DJ Pro

Technology has certainly changed the face of DJing with change we have gone fully digital with it's first Midi player with a built in Sound Card called Mix track Pro by Numark. Our new and fresh look will incorporate Mp3 Files, USB input, Mpeg Video for music videos and Karaoke files thus having an all inclusive interface to mix, search and visually

take you to the next level. Imagine having an event where you could see Michael Jackson on the Big Screen, dancing to Billie Jean and incorporate a live Video Jockey spinning all the right tunes, you could even have a little Karaoke action for those who would like to sing there hearts out... now that is a Complete Party
